**HIGH-EFFICIENCY CELLULOSE MEDIA**

Offering media options specifically designed to perform across a wide

**HARD URETHANE**

**RIGID STRUCTURAL SUPPORT**

Rigid structural support system (outer or inner liners) protect filters from damage or collapse in humid conditions or heavy vibration applications. The structure also protects the media from damage during servicing

**SOFT URETHANE**

**RADIAL SEAL**

Proven sure-fit EXCO sealing system creates a reliable, vibration-resistant interface between the air cleaner and the filter. Slides easily on and off the outlet tube during servicing, making removal and replacement fast and simple.

**HARD URETHANE**
